

/// EXPECT SUCCESS
WITH ANTUNES.

/// A Family-Owned Company With a Global Reach

At Antunes, we've been helping our customers achieve success for more than 65 years. From our headquarters in Carol Stream, Illinois, we've grown to become a leading custom solutions provider of countertop cooking equipment and water treatment systems for the global foodservice market.

Every day, we manufacture innovative products of the highest quality, backed by our team of industry experts and our commitment to personal service. We're proud to be family-owned and operated with two generations currently working inside the company. It's what sets us apart — and it's what inspires us to build lasting partnerships that drive success for our customers.

LIVING OUR VALUES

Everything we do is powered by our five core values, keeping us squarely focused on excellence, people, integrity, passion and family.

ACTING WITH PURPOSE

Our purpose is clear: "We exist to make our customers successful while positively impacting the world."

SERVING THE WORLD

We serve customers across a broad spectrum of markets and applications, including QSRs, fast casual and casual dining, convenience stores, healthcare, education and hospitality.

/// What It Means To Be a Solutions Provider

A lot of companies talk about solutions, but at Antunes, we believe solving our industry's biggest challenges starts with listening to our customers first.

Every piece of Antunes equipment is designed with your operational needs and menu versatility in mind. For more unique needs, we build on existing products to suit your specific application. We'll even work directly alongside you and your team to develop new innovations from the ground up. It's all about providing the right solution for you.

Working With Antunes

We've been recognized by our customers and the industry for our award-winning, exceptional service — and we're always here when you need us. Count on our experienced team of sales and product managers, plus our global network of reps and distributors, along with our 24/7/365 tech support.

Challenge Us

Sometimes it takes fresh thinking and next-level innovations to solve the biggest challenges. Do you need a new kind of solution? Challenge us to help you and see how our personalized approach makes all the difference.

➤ When your next big challenge calls for the next big solution, we're ready. At Antunes, we know there's not always an off-the-shelf solution that fits your specific needs. That's why we work with you to create customized equipment that helps you succeed.

CUSTOM DESIGN

At Antunes, we leverage the latest technology and best-in-class manufacturing, developing solutions that make your operation more efficient and profitable.

INTEGRATED SOLUTIONS

Our team has the knowledge and experience to create integrated solutions that: save on labor and space, reduce waste, streamline workflow, and improve throughput.

CONNECTED KITCHEN

From food safety and quality to overall process compliance, our customized technology solutions can connect equipment and track critical data, alerting operators to take immediate action.

WATER TREATMENT SOLUTIONS

We can develop a customized system that meets your water quality needs — from complete treatment to specialized applications.

COOKING SOLUTIONS

We're always seeking new ways to help operators optimize menu versatility, efficiency, energy, and labor with customized innovations that work for their unique kitchens.

The Power of Partnership

We have a proven track record of partnering with leading brands around the world, helping them exceed customer and stakeholder expectations. With Antunes by your side, you'll see why our personal approach to collaborating and problem-solving helps deliver not just the right solution, but your solution.

/// With Antunes, You Can Expect Success

Our comprehensive product line features innovative countertop cooking equipment and water treatment solutions — and that's just the beginning. We also offer unique capabilities in technology and design customization, helping operators solve challenges and take advantage of the next big opportunity.

No matter what your specific application calls for, you'll get more than 65 years of proven industry experience with our team of engineers and culinary experts. Explore our complete range of solutions and discover what a partnership with Antunes can do for you.

Make This Dish

You can create this delicious dish with just a few Antunes products — the HDC-30A Hot Dog Corral, the Egg Station Mini, the GST-3V toaster and the Rapid Steamer. This entrée is just one example of the menu innovation possible with versatile Antunes equipment.

➤ We offer a wide variety of plug-and-play ventless countertop cooking solutions designed with versatility and performance in mind. With Antunes, you can maximize valuable kitchen space, increase throughput and utilize labor more effectively. That's why our name is trusted in thousands of kitchens in leading chains around the globe.

EGG COOKING

Our egg stations make it easy to serve perfectly cooked, consistently shaped eggs in a small, energy-efficient footprint.

TOASTING

Whether it's radiant or contact toasting, our high-performance toasters deliver consistency, speed and reliability — no matter the carrier.

STEAMING

Our steamers are the ideal way to prepare fresh and flavorful items fast — yielding more nutritious and appetizing results.

GRILLING

Our legendary hot dog corrals are ideal for high-volume operations or even integrating unique limited time offers and menu innovations.

MERCHANDISING

Make a strong impression with our stylish range of cases and cabinets designed to help you showcase customer favorites.

TIMING & DISPENSING

Keep your kitchen organized and on track with our selection of cup dispensers and kitchen timers.

FEATURED PRODUCT

Rapid Steamer

The innovative Rapid Steamer uses steam to preserve the original texture, color, flavor and nutritional value of menu items. Its compact, multi-compartment design makes it easy to produce high-quality, made-to-order items in small kitchens where space is at a premium.

Quality water is essential for delicious, consistent offerings.

- Water is your most critical ingredient. It can significantly affect the taste and texture of food and beverages, making water quality an important factor for every operator to consider. Antunes offers a lineup of water treatment solutions to fit any application, ensuring you're always serving your best.

ULTRAFILTRATION

Solutions like our VZN Ultrafiltration System give operators the benefits of premium water filtration without the constant costs of maintenance and cartridge replacement.

SCALE AND HARDNESS REDUCTION

Our systems reduce scale-forming ions to protect equipment from lime scale buildup while optimizing beverage quality.

CHEMICAL/TASTE/ODOR REDUCTION

Our lineup is designed to ensure consistently great tasting water, all while minimizing maintenance and operational costs.

REVERSE OSMOSIS

Our reverse osmosis systems enhance water quality while removing total dissolved solids (TDS) from water — helping operators to protect combi ovens, steamers, coffee machines and other equipment.
